The business and interest of the Etonian Assurance Company have been transferred to this Society.

Policies in this office are indisputable, except in cases of fraud.

Persons who have been seen by a medical officer of the Society are not required to appear before the directors.

"Free Policies" are issued at a small increased rate of premium, which remains in force although the life assured may go to any part of the world.

Policies do not become void by the life insured going beyond the prescribed limits—so far as regards the interest of third parties—provided they pay the additional premium, as soon as the fact comes to their knowledge.

Parties assuring within six months of their last birth-day are allowed a limitation of half a year in the premium.

The Tables are especially favourable to young and middle-aged lives, and the limits allowed to the assured, without extra charge, are unusually extensive.

Eighty per cent. of the profits are divided at the end of every five years among the assured.—At the first division, to the end of 1845, the addition to the amount assured averaged above 30 per cent. on the premiums paid.

The objects of the Association are to render more perfect the means of ascertaining the novelty of an invention, the prevention of futile inventions, and the taking out of patents for clever but pew ness.

The Society will in no instance work a patent themselves; but shareholders will at all times have the priority of choice in purchasing patent rights.

The Committee of Investigation will be happy to advise intending patentees (not requiring assistance) as to the novelty, usefulness, and commercial value of their inventions, previous to obtaining patent rights.—Applications for shares to be made to the Secretary, at the Offices; of whom also prospectuses and all requisite information can be obtained.
